THE AUTHORITY AS A WHOLE

The Authority's primary government revenues consist primarily of rents and subsidies and grants received from HUD. The Authority receives subsidies each month based on a pre-approved amount by HUD. Grants are drawn down based on need against a pre-authorized funding level. By far, the largest portion of the Authority's primary government net position reflects its net investment in capital assets. The net investment in capital assets (e.g., land, buildings, equipment, and construction in progress) uses these capital assets to provide housing services to its tenants.

HOUSING AUTHORITY OF THE TOWNSHIP OF EDISON PROGRAMS

Public and Indian Housing Program:

Under the Public Housing Program, the Authority rents units that it owns to low-income households. This program is operated under an Annual Contributions Contract (ACC) with HUD. HUD's rent subsidy program provides housing assistance to low income families so that they are able to lease "decent, safe, and sanitary" housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts: (a) 30% of the family's adjusted monthly income, (b) 10% of the family's monthly income, or (c) the Housing Authority of the Township of Edison flat rent amount.

Public Housing Capital Fund Program:

The Public Housing Capital Fund was established under the Quality Housing & Work Responsibility Act of 1998 (QHWRA). Substantially all additions to land, structures and equipment are accomplished through these programs (included in the financial statements under PHA Owned Housing). These funds replace or materially upgrade deteriorated portions of existing Authority property. This fund is used for repairs, major replacements, upgrading and other non-routine maintenance work that needs to be done on the Authority's apartments to keep them clean, safe and in good condition.

Housing Choice Voucher Program

Under the Housing Choice Voucher Program, the Authority administers contracts with independent landlords to provide housing to Section 8 tenants. The Authority subsidizes the tenant's rent through Housing Assistance Payment made to the landlord. This program is also administered under an Annual Contributions Contract (ACC) with HUD. HUD provides annual contributions funding to enable the Authority to structure a contract that sets the participants' rent at approximately 30% of household income subject to certain restrictions.

Shelter Plus Care Program

Shelter Plus Care (S+C) is a program designed to provide housing and supportive services on a long-term basis for homeless persons with disabilities, (primarily those with serious mental illness, chronic problems with alcohol and/or drugs, and acquired immunodeficiency syndrome (AIDS) or related diseases) and their families who are living in places not intended for human habitation (e.g., streets) or in emergency shelters. The program allows for a variety of housing choices, and a range of supportive services funded by other sources, in response to the needs of the hard-to-reach homeless population with disabilities

PIH and Housing Choice Voucher CARES Act Program

The CARES Act requires that recipients use of CARES grants be tied to preventing, preparing for, and responding to COVID-19, including maintaining normal operations and funding eligible affordable housing activities under NAHASDA during the period the program is impacted by COVID-19. These funds may also be used to maintain normal operations and fund eligible activities during the period that a recipient's program is impacted by COVID-19. HUD expects and encourages recipients to expend funds expeditiously given the ongoing COVID-19 National Emergency.

BUDGETARY HIGHLIGHTS

For the year ended June 30, 2020, individual program or grant budgets were prepared by the Authority and adopted by the Board of Commissioners. The budgets were primarily used as a management tool and have no legal stature. The budgets were prepared in accordance with the accounting procedures prescribed by the applicable funding agency.

The Authority submits its annual operating and capital budgets to the State of New Jersey Department of Community Affairs in accordance with New Jersey statute. After the New Jersey Department of Community Affairs approves the budget, it is formally adopted by resolution of the Housing Authority's Board of Commissioners. Once adopted, the Board of Commissioners may amend the legally adopted budget when unexpected modifications are required in estimated revenues and expenses. Each fund's budget is prepared on a detailed line item basis. Revenues are budgeted by source and expenditures are budgeted by expense classification within each revenue source.

CAPITAL ASSETS AND DEBT ADMINISTRATION

1 – Capital Assets

The Authority's primary government net investment in capital assets as of June 30, 2020 was \$3,134,579 (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, and construction in progress. The total decrease during the year in the Authority's investment in capital assets was \$219,941 or 7% percent. Major capital expenditures of \$76,043 were made during the year. Major capital assets events during the fiscal year included the following:

- Apartment Upgrades
- Replacement of a Boiler

2 - Debt Administration

The Authority has participated in the New Jersey pooled leveraging program. The Capital Project Bond payable in the amount of \$450,000 was outstanding as of June 30, 2020. A full disclosure of loans payable on June 30, 2020 can be found in Note 15.

NEW INITIATIVES

For the fiscal year 2020 the Housing Authority's primary focus has been on funding and accountability. As a public entity that derives approximately 84% percent of its revenue from the Department of Housing and Urban Development, (2019 was 80% percent), the Authority is constantly monitoring for any appropriation changes, especially since it appears the nation is continuing an era of need for additional public assistance to help families meet the challenges of a very tumultuous economy.

The current administration of the Authority is determined to improve the financial results of the Authority's operations. The Authority has been exploring a Rental Assistance Application (RAD) which would involve converting current public housing units to a Section 8 platform. While this process takes time the Authority has remained diligent in being proactive in regards to maintaining the condition of their buildings.

The Authority has made steady progress in various phases of the operations, all the while increasing the occupancy percentage in the public housing units and a high utilization rate in Housing Assistance Programs. Interactions with the residents are a constant reminder of the need of the services.

Regardless of the constraints (financial or regulatory) placed on this Housing Authority, the Authority will continuously look for ways to better provide or expand housing and housing assistance to qualified residents of the Township of Edison all the while being mindful of their responsibility to be good stewards of the public's tax dollars.

**HOUSING AUTHORITY OF THE TOWNSHIP OF EDISON
MANAGEMENT'S DISCUSSION AND ANALYSIS

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Housing Authority of the Township of Edison is primarily dependent upon HUD for the funding of operations; therefore, the Housing Authority is affected more by Federal budget than by local economic conditions. Pressure on the federal budget will remain in the form of both record deficits and competing funding needs. We do not expect this consistent trend to change.

The capital budgets for the 2021 fiscal year have already been submitted to HUD for approval and no major changes were made. The Capital fund programs are multiple year budgets and have remained relatively stable. Capital Funds are used for the modernization of public housing property including administrative fees involved in the modernization.

The following factors were considered in preparing the Authority's budget for the fiscal year ending June 30, 2021.

- State of New Jersey economy including the impact on tenant income. Local inflationary, recessionary and employment trends, which can affect resident incomes and therefore the amount of rental income. Tenant rental payments are based on tenant income.
- The need for Congress to fund the Department of Defense and Homeland Security due to the war on terrorism and other impending military activities will probably result in reduced appropriations for all other domestic program spending.
- Continued increases in health care insurance are expected to impact employee benefits cost over the next several years.
- Converting Public and Indian Housing Program rental units into RAD subsidy units.
- Inflationary pressure on utility rates, supplies and other cost.
- Trends in the housing market which affect rental housing available for the Section 8 tenants, along with the amount of the rents charged by the private landlords, are expected to have a continued impact on Section 8 HAP payments.
- Even if HUD was fully funded for both the Operating and Capital Funds, it is unlikely that Congress would appropriate adequate funding. Pressure on the federal budget will remain in the form of both record deficits and competing funding needs.

HOUSING AUTHORITY OF THE TOWNSHIP OF EDISON

Notes to Financial Statements

June 30, 2020

NOTE 1 - SUMMARY OF ORGANIZATION, ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Organization - The Authority is a governmental public corporation which was organized under the public corporation law created under federal and state housing law as defined by State statute (N.J., S.A. 40A:12A-1 et al the Housing Authority Act) for the purpose of engaging in the development, acquisition and administrative activities of the low-income housing program and other programs with similar objectives for low and moderate income families residing in the Township of Edison in accordance with the rules and regulations prescribed by the Department of Housing and Urban Development (HUD).

The Authority is governed by a Board of Commissioners which is essentially autonomous but is responsible to the U.S. Department of Housing and Urban Development and the State of New Jersey Department of Community Affairs. An Executive Director is appointed by the Housing Authority's Board to manage the day-to-day operations of the Authority. The Authority is responsible for the development, maintenance, and management of public housing for low- and moderate-income families residing in Edison. Operating and modernization subsidies are provided to the Authority by the federal government.

The financial statements include all the accounts of the Authority. The Authority is the lowest level of government over which the Authority's Board of Commissioners and Executive Director exercise oversight responsibility. The Authority is not included in any governmental "reporting entity" since its board members; while they are appointed primarily by the Mayor of Edison and Township Council, the Board of Commissioners have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary responsibility for accounting and fiscal matters. The Authority has also concluded that it is excluded from the Township of Edison reporting entity.

Based on the following criteria, the Authority has identified one (1) entity which should be subject to evaluation for inclusion in the Authority's reporting entity. The criteria for including or excluding a component unit relationship as set forth in GASB's #61 *The financial Reporting Entity* and Financial Reporting Standards, include whether:

- A. The organization is legally separate.
- B. The organization is fiscal dependency on the primary government.
- C. The organization has potential to impose a financial benefit or burden on the primary government.
- D. The organization meets the financial accountability criteria for inclusion as a component unit of the primary government.
- E. The primary government is able to impose its will on the organization.

The Authority manages the financial affairs of Edison Affordable Housing Inc.

Significant Accounting Policies

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative sources. The Authority has determined that the applicable measurement focus (flow of economic resources) and accounting basis (accrual) is similar to that of a commercial enterprise. As such, the use of proprietary funds best reflects the activities of the Authority.

The Authority has adopted GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. The Statement establishes accounting and financial reporting standards for non-exchange transactions including financial or capital resources. The Authority's primary source of non-exchange revenue relates to grants and subsidies. Grant and subsidy revenue are recognized at the time eligible program expenditures occur and/or the Authority has complied with the grant and subsidy requirements.

In accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, the Authority incorporates FASB and AICPA guidance into GASB authoritative literature.

On January 30, 2008, HUD issued *PIH Notice 2008-9* which among other things requires that unused housing assistance payments ("HAP") under proprietary fund reporting should be reported as restricted net position, with the associated cash and investments also being reported on the Statement of Net Position and HUD's Financial Data Schedule ("FDS") as restricted. Any unused administrative fees should be reported as unrestricted net position, with the associated assets being reported on the FDS as unrestricted.

Both administrative fees and HAP revenue continue to be recognized under the guidelines set forth in GASB Statement No. 33. Accordingly, both the time and purpose restrictions as defined by GASB 33 are met when these funds are available and measurable, not when these funds are expended. The Section 8 Housing Choice Voucher program is no longer a cost reimbursement grant; therefore, the Authority recognizes unspent administrative fees and HAP revenue in the reporting period as revenue for financial statement reporting.

Significant Accounting Policies -Continued

The Authority adopted Statement No. 68 of the Governmental Accounting Standards Board "*Accounting and Financial Reporting for Pensions.*" The Statement established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenditures associated with pension plans of State and Local Governments. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actual present value, and attribute that present value to periods of employee service. In addition, this Statement details the recognition and disclosure requirements for employers with liabilities to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions.

Statement No. 75 of the Government Accounting Standards Board ("GASB 75") *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* was issued June 2015. GASB 75 establishes financial reporting standards for other postemployment benefits (OPEB) plans for state and local governments. This standard replaces the requirements of GASB 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended. The statement establishes standards for recognizing and measuring liabilities, deferred inflows and outflows of resources, and expense/expenditures, as well as identifying the methods and assumptions required to project benefit payments, discount projected benefit payments, to their actuarial present value, and attribute that present value to periods of employee service. Additionally, GASB 75 lays out requirements for additional note disclosures and required supplementary information. The Authority adopted this accounting standards effective July 1, 2017.

Basis of Accounting –

In proprietary fund, activities are recorded using the accrual basis of accounting. Under the accrual basis of accounting revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. This requires the Housing Authority to account for operations in a manner similar to private business or where the Board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The major sources of revenue are tenants dwelling rentals, HUD operating subsidy, and other revenue. The Authority provides housing assistance payments to participating owners on behalf of eligible tenants to provide decent, safe and sanitary housing for extremely low and very low-income families.

Basis of Accounting – Continued

HUD's rent subsidy program provides housing to low-income families so that they are able to lease "decent, safe, and sanitary" housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts:

- (a) 30% of the family's adjusted monthly income,
- (b) 10% of the family's monthly income, or
- (c) Housing Authority Township of Edison's flat rent amount.

Tenants dwelling rental charges are determined and billed monthly and are recognized as revenue when assessed because they are measurable and are collectible within the current period. The amounts not received by June 30, are considered to be accounts receivable and any amounts received for subsequent period are recorded as deferred revenue.

Other revenue composed primarily of management services and fees and resident's late charges. The revenue is recorded as earned since it is measurable and available.

Administrative fee paid by HUD to the Authority in excess of administrative expenses are a part of the unrestricted net position and are considered to be administrative fee reserves. Other revenue is income composed primarily of miscellaneous services fees and resident's late charges. The revenue is recorded as earned since it is measurable and available.

Financial transactions are recorded and organized in accordance with the purpose of the transaction. Each program is an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. All material inter-program accounts and transactions are eliminated in the preparation of the basic financial statements. Because the Authority's activity is considered self-financing and does not rely on specific taxes or fines (i.e., property taxes, sales and use tax etc.) no activity will be maintained as governmental funds but will be recorded as proprietary funds under the Enterprise Fund.

Report Presentation –

The financial statements of the Authority have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to enterprise funds of State and Local Governments on a going concern basis. The focus of enterprise funds is the measurement of economic resources, that is, the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The Authority is a single enterprise fund and maintains its records on the accrual basis of accounting. Enterprise funds account for activities (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (ii) that are required by law or regulations that the activity's cost of providing services, including capital cost (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues, or (iii) that the pricing policies of the activity establish fees and charges, designated to recover its costs, including capital costs (such as depreciation or debt service).

Under this method, revenues are recorded when earned and expenses are recorded when the related liability is incurred.

The federally funded programs administered by the Authority are detailed in the Financial Data Schedule and the Schedule of Expenditures of Federal Awards; both are which are included as Supplemental information.

Other accounting policies are as follows

1 – Cash and cash equivalents are stated at cost, which approximates market. The Authority considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

2 – Collection losses on accounts receivable are charged against an allowance for doubtful accounts.

3 – Buildings and equipment are recorded at cost for all programs and depreciation is computed on the straight-line basis.

4 – Repairs funded out of operations, such as painting, roofing and plumbing, are charged against income for all programs.

5 – Operating subsidies received from HUD are recorded as income when earned.

6 – The cost of accumulated unpaid compensated absences, including fringe benefits, is reported in the period earned rather than in the period paid.

Other accounting policies - Continued

7 – Prepaid expenses represent payments made by the Authority in the current year to provide services occurring in the subsequent fiscal year.

8 – The Authority does not have any infrastructure assets for its Enterprise Fund.

9 – Inter-fund receivable and payables arise from inter-fund transactions and are recorded by all funds in the period in which the transactions are executed.

10- Advertising cost is charged to expense when incurred.

11- Costs related to environmental remediation are charged to expense. Other environmental costs are also charged to expense unless they increase the value of the property and/or provide future economic benefits, in which event they are capitalized. Liabilities are recognized when the expenditures are considered probable and can be reasonably estimated. Measurement of liabilities is based on currently enacted laws and regulations, existing technology, and undiscounted site-specific costs. Generally, such recognition coincides with the Authority's commitment to a formal plan of action.

12- When expenses are incurred where both restricted and unrestricted net positions are available the Authority will first use the restricted funds until they are exhausted and then the unrestricted net position will be used.

13- Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Authority, but which will only be resolved when one or more future events occur or fail to occur. The Authority's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Authority or unasserted claims that may result in such proceedings, the Authority's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Authority's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed. Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee would be disclosed.

14 - Operating and non-operating revenues and expenses

The major sources of revenue for the Authority are various subsidies from the U.S. Department of Housing and Urban Development, management contract revenue, and charges to tenants. The major sources of revenue for the discretely presented component unit are tenants rents earned, and management contract revenue.

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the Authority. Non-operating revenues and expense consist of those revenues and expenses that are related to financing and investing types of activities and result from nonexchange transactions or ancillary activities.

15 - Taxes

The Authority operates as defined by the Internal Revenue Code Section 115 and is exempt from income taxes under Section 115.

Under federal, state, and local law, the Authority's program is exempt from income, property and excise taxes. However, the Authority is required to make payments in lieu of taxes (PILOT) for the low-income housing program in accordance with the provision of a Cooperation Agreement. Under the Cooperation Agreement, the Authority pay the municipality a 10% of its net shelter rent.

16 - Net Position

In accordance with the provisions of Statement No. 34 ("Statement 34") of the Governmental Accounting Standards Board *"Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments"*, the Authority has classified its net position into three components - net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net Investment in Capital Assets - This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather that portion of the debt is included in the same net position component as the unspent proceeds.

Other accounting policies - Continued

16 - Net Position -continued

Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), granters, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - This component of net position consists of net position that does not meet the definitions of "restricted" or "net investment in capital assets."

17-Impairment Losses

The Authority reviews its investment in real estate for impairment whenever events or changes in circumstances indicate that the carrying value of such property may not be recoverable. Recoverability is measured by a comparison of the carrying amount of the real estate to the future net undiscounted cash flow expected to be generated by the rental property including any estimated proceeds from the eventual disposition of the real estate. If the real estate is considered to be impaired, the impairment to be recognized is measured at the amount by which the carrying amount of the real estate exceeds the fair value of such property. No impairment losses were recognized in 2020.

Budgetary and Policy Control –

The Authority submits its annual operating subsidy and capital budgets to HUD. The Authority also submits its annual operating and capital budgets to the State of New Jersey Department of Community Affairs in accordance with New Jersey statute. After the New Jersey Department of Community Affairs approves the budget, it is formally adopted by resolution of the Housing Authority's Board of Commissioners. Once adopted, the Board of Commissioners may amend the legally adopted budget when unexpected modifications are required in estimated revenues and expenses. Each fund's budget is prepared on a detailed line-item basis. Revenues are budgeted by source and expenditures are budgeted by expense classification within each revenue source.

Public and Indian Housing Program:

Under the Public and Indian Housing Program, the Authority rents units that it owns to low-income households. This program is operated under an Annual Contributions Contract (ACC) with HUD. HUD's rent subsidy program provides housing assistance to low-income families so that they are able to lease "decent, safe, and sanitary" housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts: (a) 30% of the family's adjusted monthly income, (b) 10% of the family's monthly income, or (c) the Housing Authority of the Township of Edison flat rent amount.

Public Housing Capital Fund Program:

The Public Housing Capital Fund was established under the Quality Housing & Work Responsibility Act of 1998 (QHWRA). Substantially all additions to land, structures and equipment are accomplished through these programs (included in the financial statements under PHA Owned Housing). These funds replace or materially upgrade deteriorated portions of existing Authority property. This fund is used for repairs, major replacements, upgrading and other non-routine maintenance work that needs to be done on the Authority's apartments to keep them clean, safe and in good condition.

Section 8 Housing Choice Voucher Program

Under the Section 8 Housing Choice Voucher Program, the Authority administers contracts with independent landlords to provide housing to Section 8 tenants. The Authority subsidizes the tenant's rent through Housing Assistance Payment made to the landlord. This program is also administered under an Annual Contributions Contract (ACC) with HUD. HUD provides annual contributions funding to enable the Authority to structure a contract that sets the participants' rent at approximately 30% of household income subject to certain restrictions.

The program allows for a variety of housing choices, and a range of supportive services funded by other sources, in response to the needs of the hard-to-reach homeless population with disabilities

PIH and Housing Choice Voucher CARES Act Program

The CARES Act requires that recipients use of CARES grants be tied to preventing, preparing for, and responding to COVID-19, including maintaining normal operations and funding eligible affordable housing activities under NAHASDA during the period the program is impacted by COVID-19. These funds may also be used to maintain normal operations and fund eligible activities during the period that a recipient's program is impacted by COVID-19. HUD expects and encourages recipients to expend funds expeditiously given the ongoing COVID-19 National Emergency.

Edison Affordable Housing Inc. entity is legally separate from the Housing Authority of the Township of Edison but is considered part of the reporting entity. The Authority manages the financial affairs for the Edison Affordable Housing Inc. The purpose of the Corporation was to promote additional affordable housing in the Township of Edison. This corporation operates on a fiscal year that ended on June 30. The method of accounting for the component unit is in accordance with accounting principles generally accepted in the United States of America. Board of Commissioners - The criteria used in determining the scope of the entity for financial reporting purposes are as follows:

1. The ability of the Board to exercise supervision of a component unit's financial independence.
2. The Board's governing authority extends to financial decision-making authority and is held primarily accountable for decisions.
3. The Board appoints the management of the Authority who is responsible for the day-to-day operations and this management are directly accountable to the Board.
4. The ability of the Board to significantly influence operations through budgetary approvals, signing and authorizing contracts, exercising control over facilities, and approving the hiring or retention of key managerial personnel.
5. The ability of the Board to have absolute authority over all funds of the Authority and have accountability in fiscal matters.

NOTE 2 – ESTIMATES

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the period reported. These estimates include assessing the collectibility of accounts receivable, the use, and recoverability of inventory, and the useful lives and impairment of tangible and intangible assets, among others. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

NOTE 3 - PENSION PLAN

The Authority participates in the State of New Jersey Public Employees Retirement System (PERS), which is sponsored and administered by the New Jersey Division of Pensions and Benefits. It is a cost sharing, multiple employers defined benefit pension plan. PERS was established in January 1955 under the provision of NJ SA 43:15A to provide coverage, including post-retirement health care, for substantially all full-time employees of the state, its counties, municipalities, school districts or public agencies, provided the employee is not a member of another state administered retirement system.

Membership is mandatory for such employees. Contributions to the plan are made by both the employee and the Authority. Required employee contributions to the system are based on a flat rate determined by the New Jersey Division of Pensions for active plan members. Benefits paid to retired employees are based on length of service, latest earnings, and veteran status. Authority contributions to the system are determined by PERS and are billed annually to the Authority.

The State of New Jersey, Department of Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0925. On the web:

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994 and Chapter 115, P.L. of 1998, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employer's contributions are actuarially determined annually by the Division of Pensions. Employee contributions are currently 7.50% of base wages.

The annual employer contribution includes funding for basic retirement allowances, cost-of-living adjustments, and the cost of medical premiums after retirement for qualified retirees, and noncontributory death benefits. The Authority's contribution for 2020 amounted to \$57,710.

Post Employment Retirement Benefits

The Authority provides post employment health care benefits and life insurance for its eligible retirees. Eligibility requires that employees be 55 years or older with various years of service.

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS

The Authority's cash, cash equivalents are stated at cost, which approximates market. Cash, cash equivalents and investment include cash in banks, petty cash and a money market checking account and certificates of deposit, and other investments with original maturities of less than three months from the date of purchase. For the statement of cash flows, cash and cash equivalents include all cash balances and highly liquid investments with a maturity of three months or less at time of purchase.

Concentration of Credit Risk

HUD requires housing authorities to invest excess funds in obligations of the United States, Certificates of Deposit or any other federally insured investment. HUD also requires that deposits be fully collateralized at all times. Acceptable collateralization includes FDIC/FSLIC insurance and the market value of securities purchased and pledged to the political subdivision. Pursuant to HUD restrictions, obligations of the United States are allowed as security for deposits. Obligations furnished as security must be held by the Authority or with an unaffiliated bank or trust company for the account of the Authority. These funds at various banks are collateral pledge under the New Jersey Government Code of the Banking Law.

Risk Disclosures

Collateral for Deposits

New Jersey Authorities are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or State of New Jersey or the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of securities which may be purchased by New Jersey Authorities. The Authority is required to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy limits the Authority's investment portfolio to maturities not to exceed two years at time of purchase. On June 30, 2020, the Authority's deposits and investments were not limited and all of which are either available on demand or have maturities of less than two years.

Credit Risk

This is risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. The Authority's investment policy is that none of its total portfolio may be invested in securities of any single issuer, other than the US Government, its agencies and instrumentalities.

NOTE 8 - FIXED ASSETS – CONTINUED

The Housing Authority of the Township of Edison reviews its rental property for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. When recovery's reviewed, if the undiscounted cash flows estimated to be generated by the property are less than it is carrying amount, management compares the carrying amount of the property to its fair value in order to determine whether an impairment loss has occurred. The amount of impairment loss is equal to the excess of the asset's carrying value over its estimated fair value. No impairment loss has been recognized during the years ended June 30, 2020.

Below is a schedule of changes in fixed assets for the twelve months ending June 30, 2020

NOTE 9 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

A deferred outflow is an outflow of resources, which is a consumption of net assets by the government that is applicable to the reporting period. A deferred inflow is an inflow of resources, which is an acquisition of net assets by the government that is applicable to the reporting period.

The OPEB and Pension Liability discussed in Note 16 and 17 resulted in the Authority incurring deferred outflows and inflows. The difference between expected and actual experience with regard to economic and demographic factors, when the actuary calculated the net pension liability, is amortized over a five-year closed period for PERS and OPEB, reflecting the average remaining service life of members (active and inactive members), respectively. The first year of amortization is recognized as pension expense with the remaining years shown as either a deferred outflow of resources or a deferred inflow of resources. The Authority’s deferred outflows and inflows are as follows:

| Deferred Outflows of Resources | OPEB | Pension | Total |
|--|------------------|-------------------|-------------------|
| Differences Between Expected and Actual Experiences | \$ - | \$ 19,188 | \$ 19,188 |

NOTE 9 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES-CONTINUED

Difference in Expected and Actual Experience

The difference between expected and actual experience with regard to economic and demographic factors is amortized over a five-year closed period reflecting the average remaining service life of the plan members (active and inactive), respectively. The first year of amortization is recognized as OPEB and pension expense with the remaining years shown as either deferred outflow of resources or a deferred inflow of resources. The collective amount of the difference between expected and actual experience for the fiscal year is \$19,188 and \$394,365.

Changes in Assumptions

The change in assumptions about future economic or demographic factors or other inputs is amortized over a five-year closed period, reflecting the average remaining service life of the plan members (active and inactive members), respectively. The first year of amortization is recognized as OPEB and pension expense with the remaining years shown as either a deferred outflow of resources or a deferred inflow of resources. The collective amount of the difference between expected and actual experience for the fiscal year is \$106,746 and \$843,225.

Net Difference between Projected and Actual Investments Earnings on Pension Plan Investments

The difference between the System's expected rate of return of and the actual investment earnings on pension plan investments is amortized over a five-year closed period in accordance with GASB 68 and GASB #75. The first year of amortization is recognized as pension expense with the remaining years shown as either a deferred outflow of resources or a deferred inflow of resources. The collective amount of the difference between expected and actual experience for the fiscal year is \$1,099 and \$16,875.

Changes in Proportion and Differences between Contributions and Proportionate Share of Contributions

The change in employer proportionate share is the amount of difference between the employer proportionate shares of net OPEB and pension liability in the prior year compared to the current year. The difference between employer contributions and proportionate share of contributions is the difference between the total amount of employer contributions and the amount of the proportionate share of employer contributions. The change in proportionate share and the difference between employer contributions and proportionate share of contributions is amortized over a six-year closed period for PERS, reflecting the average remaining service life of PERS members (active and inactive members), respectively. The changes in proportion and differences between employer contributions and proportionate share of contributions for the fiscal year are \$117,600 and \$543,695.

NOTE 16 – OTHER POST EMPLOYMENT BENEFITS

OPEB Liability – Plan Description and Benefits Provided - continued

Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who:

- 1) retired on a disability pension; or
- 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or
- 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or
- 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiation's agreement.

Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Allocation Methodology

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The total OPEB liability for the year ended June 30, 2019 were \$1,332,393.

Net OPEB Liability

The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Actuarial Assumptions: The total OPEB Liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all period included in the measurement, unless otherwise specified:

- Inflation Rate = 2.5%
- Salary Increases
 - Through 2026 = 2.00% to 6.00%
 - Thereafter = 3.00% to 7.00%

Actuarial Assumptions - Continued

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2019 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2019 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2019 scale.

Certain actuarial assumptions used in the June 30, 2018 valuation were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan - the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 7.5% decreasing to a 4.5% long-term trend rate after eight years. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTE 17 – ACCRUED PENSION LIABILITY - CONTINUED

Net Pension Liability Information

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS. The Authority participates in the State of New Jersey, Public Employees' Retirement System (PERS).

The following represents the membership tiers for PERS:

- 1) Tier 1 – Members who enrolled prior to July 1, 2007
- 2) Tier 2 – Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3) Tier 3 – Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4) Tier 4 – Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5) Tier 5 – Members who were eligible to enroll on or after June 28, 2011.

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability.

The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Allocation Percentage Methodology

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer allocations are applied to amounts presented in the schedules of pension amounts by employer. The allocation percentages for each group as of June 30, 2019 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal years ended June 30, 2019.

The contribution for PERS is set by NJSA 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which include the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019 the State's pension contribution was less than the actuarial determined amount.

Actuarial Assumptions

The total pension liability for June 30, 2019 measurement dates were determined by using an actuarial valuation as of July 1, 2018, with update procedures used to roll forward the total pension liability to June 30, 2018. The actuarial valuations used the following actuarial assumptions:

| | |
|---------------------------|--------------------------|
| Inflation | 2.75% |
| Salary Increases: | |
| Through 2026 | 2.00-6.00%, based on age |
| Thereafter | 3.00-7.00%, based on age |
| Investment Rate of Return | 7.00% |

Pre-retirement mortality rates were based on the Pub-2010 Employee Preretirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2010 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-mortality rates were based on the Pub-2010 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2010 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

NOTE 17 – ACCRUED PENSION LIABILITY - CONTINUED

Actuarial Assumptions -continued

The actuarial assumptions used in the July 1, 2018 evaluation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities were higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% on June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS’s target asset allocation as of June 30, 2019 as summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|-----------------------------------|-------------------|--|
| Risk Mitigation Strategies | 3.00% | 4.67% |
| Cash Equivalents | 5.00% | 2.00% |

| Investment Grade Credit | 10.00% | 4.25% |
| High Yield | 2.00% | 5.37% |
| Private Credit | 6.00% | 7.92% |

Discount Rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the most recent fiscal year.

The State employer contributed 70% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to the Discount Rate Assumption

The following presents the current-period net pension liability of the employers calculated using the current-period discount rate assumption of 6.28% percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.28% percent) or 1 percentage-point higher (7.28% percent) than the current assumption (in thousands). Sensitivity of the Authority's proportionate share of the Net Pension Liability due to change in the Discount Rate:

If there are significant unspent related debt proceeds as of year-end, the portion of the debt related to the unspent proceeds is not included in the calculation of investment in Net Investment in Capital Assets. Rather, that portion of the debt is included in the same net asset component as the unspent proceeds.

The restricted cash in the amount of \$56,572 was reported under the Housing Choice Voucher Program as a HAP reserve for future use. The Authority invested these funds with Bank of America. In accordance with HUD’s PIH Notice 2007-03, the reserve fund balance may only be used to assist additional families up to the number of units under contract.

Housing Choice Voucher Program HUD Held Reserves Funds

Effective January 1, 2012, HUD was required to control the disbursement of funds in such a way that the Authority does not receive funds before they are needed, resulting in the re-establishment of HUD held program reserves to comply with the Treasury requirements. HUD held reserve is a holding account at the HUD level that maintains the excess of HAP funds that have been obligated (ABA) but undisbursed to the Authority. The excess HAP funds will remain obligated but not disbursed to the Authority. HUD will hold these funds until needed by the Authority. The amount of HUD held reserves for the Authority on June 30, 2020 was \$169,090.

NOTE 23 - ANNUAL CONTRIBUTIONS BY FEDERAL AGENCIES

HUD contributes operating subsidy for the Public and Indian program approved in the operating budget under the Annual Contribution Contract. The operating subsidy contributions for the year ended June 30, 2020 were \$817,306.

Annual Contributions Contracts for the Section 8 Housing Choice Voucher Program to provide for housing assistance payments to private owners of residential units on behalf of eligible low or very low-income families. The program provides for such payment with respect to existing housing covering the difference between the maximum rental on a dwelling unit, and the amount of rent contribution by the participating family and related administrative expense. HUD contributions for the Housing Choice Voucher for June 30, 2020 was in the amount of \$3,662,119.

NOTE 24 - CURRENT VULNERABILITY DUE TO CERTAIN CONCENTRATIONS

The Authority operations are concentrated in the low-income housing real estate market. In addition, the Authority operates in a heavily regulated environment. The operations of the Authority are subject to the administrative directives, rules and regulations of federal, state, and local regulatory agencies, including, but not limited to HUD. Such administrative directives, rules, and regulations are subject to change by an act of congress or an administrative change mandated by HUD. Such changes may occur with little notice or inadequate funding to pay for the related cost, including the additional administrative burden, to comply with a change.

Total financial support by HUD was \$5,624,999 to the Authority which represents approximately 84% percent of the Authority's total revenue for the year ended June 30, 2020.

NOTE 25 - CONTINGENCIES

Litigation – On June 30, 2020, the Authority was not involved in any threatening litigation.

Grants Disallowances – The Authority participates in federally assisted grant programs. The programs are subject to compliance audits under the single audit approach. Such audits performed by the federal government could lead to adjustments for disallowed claims, including amounts already collected, and reimbursement by the Authority for expenditures disallowed under the terms of the grant. The Authority's management believes that the number of disallowances, if any, which may arise from future audits will not be material.

For year ending June 30, 2020

As of June 30, 2020, the Authority had a prior period adjustment in the amount of \$96,383 while recording GASB #75 Net OPEB Liability from the State of New Jersey audit report for the OPEB liability as of June 30, 2018.

NOTE 27 - SUBSEQUENT EVENTS

Coronavirus Pandemic:

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. have declared a state of emergency. It is anticipated that these impacts will continue for some time. There has been no immediate impact to the Authority's operations. Future potential impacts may include disruptions or restrictions on our employees' ability to work or the tenant's ability to pay the required monthly rent. Operating functions that may be changed include intake, recertification and maintenance. Changes to the operating environment may increase operating costs. Additional impacts may include the ability of tenants to continue making rental payments because of job loss or other pandemic related issues. The Authority already received additional operating subsidy from HUD to offset these expenses.

Events that occur after the statement of net assets date but before the financial statements were available to be issued, must be evaluated for recognition or disclosed. The effects of subsequent events that provide evidence about conditions that existed after the statement of net assets date required disclosure in the accompanying notes. Management has evaluated the activity of the Authority thru March 1, 2021, the date which the financial statements were available for issue and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS**

Board of Commissioners
Housing Authority of the Township of Edison
14 Rev. Samuel Carpenter Blvd.
Edison, New Jersey 08820

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Housing Authority of the Township of Edison which comprise the statement of net position as of June 30, 2020 and the related statement of revenue, expenses and changes in net position, statement of cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 1, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Housing Authority of the Township of Edison internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Housing Authority of the Township of Edison's internal control. Accordingly, we do not express an opinion on the effectiveness of Housing Authority of the Township of Edison internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Housing Authority of the Township of Edison financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE
UNIFORM GUIDANCE**

Board of Commissioners
Housing Authority of the Township of Edison
14 Rev. Samuel Carpenter Blvd.
Edison, New Jersey 08820

Report on Compliance for Each Major Federal Program

We have audited Housing Authority of the Township of Edison compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of Housing Authority of the Township of Edison major federal programs for the year ended June 30, 2020. Housing Authority of the Township of Edison major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Housing Authority of the Township of Edison major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Housing Authority of the Township of Edison compliance with those requirements and performing such other procedures as we consider necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Housing Authority of the Township of Edison compliance.

Opinion on Each Major Federal Program

In our opinion, Housing Authority of the Township of Edison complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Housing Authority of the Township of Edison is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Housing Authority of the Township of Edison's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Housing Authority of the Township of Edison internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
